

Are you ready to host a REBOOT?

For the women in your professional network to:

- Shut down the noise of their busy day.
- Find clarity and next steps around topics that are impacting their careers and lives.
- Leverage and gain insights from other women's experiences.

Why a Reboot?

- As professional women we have so much to learn from each other, but rarely take the opportunity to do so.
- We don't know what we don't know. This is why we need to learn new ways to replace our limiting habits with new ones that support us in achieving our work and life goals.
- To expand and deepen professional networks through productive, relevant and authentic conversations. (A great opportunity to host clients and/or employees.)

A REBOOT is a results accelerator.

In this session they'll:

1. Learn how to do exactly what they have been avoiding.
2. Be equipped with Tools that they can start using immediately to generate desired outcomes and accelerate results.
3. Have real conversations that are invaluable for navigating work and life.

The content is structured as a framework making it relevant to a diverse audience no matter what the participant's title or years of experience may be.

The Tools are directly from Victoria's proprietary *Your P.O.W.E.R System: 5 Fundamental Principles to Generate Results and Live Your Best Life*™.

Practical. Productive. Action oriented.
