

Victoria Turner | Bio

Victoria Turner is a certified executive coach, entrepreneur and an expert at helping professionals to get out of their own way.

Victoria believes that we are the biggest obstacles standing in our own way of the successes we desire at work and in life. No matter what the outcome may be: drive sales, a promotion, close a deal, lead a new team, etc. The details around us will not change; it is how we choose to navigate them that can.

All of Victoria's work is based on the principles of her proprietary process called Your P.O.W.E.R System: 5 Fundamental Principles to Generate Exceptional Results and To Live Your Best Life™. Each of the principles is supported by habit changing tools that drive desired outcomes.

Her clients range from Canada's top financial institutions to individual entrepreneurs and engage in one-on-one executive coaching or within customized groups called [P.O.W.E.R Advisory Boards™](#) where participants are able to leverage the shared experiences of the other members.

Prior to coaching, Victoria combined her Bachelor of Commerce degree and entrepreneurial spirit to create www.pippalily.com, a line of Canadian made baby products sold through independent, high end boutiques, as well as www.simplyonboard.com a mass market product sold through international distributors, as well as Toys R Us. Victoria successfully sold and transitioned Pippalily Ltd. in 2011.

Victoria is frequently invited to deliver "Getting Out of Your Own Way: How to take confident action, outside of your comfort zone, to generate results™" a workshop that benefits both the individual and their corporation or organization.

"Being a part of a P.O.W.E.R Advisory Board was an incredible experience. By the end of the first few months, I had achieved more than I thought I would have by the end of the program. The program was essential in creating awareness and my ability to reframe what was transpiring around me. It gave me clarity and a laser focus on what I needed to do to move the dial, now. I know that the tools I have learnt are transferable to my team and easy to implement. They are the building blocks that have catapulted me into purposeful action. Thank you Victoria."
